Purpose of this form

The Township has experienced problems in the past where new businesses have moved in to existing commercial buildings and were later found not to be compatible with the property's zoning or zoning permit conditions. The Township is using this process to determine if:

- 1. Your business will comply with the Zoning District Regulations (generally) and with the specific property conditions.
- 2. That your business will have adequate parking facilities.
- 3. The sewage of your business will not exceed the design flow of the sewage disposal system.
- 4. Your business will be compliant with any other applicable Township Ordinance.
